## **BG Performance Oil Service**

## FOR GASOLINE MARINE

This 3-part kit, PN KE04-N1C8, safely and effectively cleans hard-working marine engines and fuel systems by removing carbon deposits and varnish buildup. **BG Engine Performance Concentrate** 

**BG EPR® Engine Performance Restoration®** is a world-class engine cleaner.

BG 44K° is the #1 fuel system cleaner in the U.S.A.

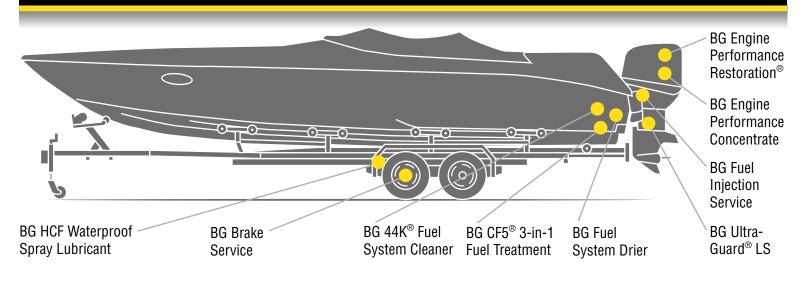

## This kit:

- Restores peak performance
- Prevents costly repairs and downtime
- Protects against premature wear
- Restores fuel economy

## **SYSTEM SERVICES FOR GASOLINE MARINE**

**BG EPR®** Restores compression and cleans engine by removing soot and carbon deposits from piston rings, while restoring ring function. Reduces engine vibration and blow-by.

**BG ENGINE PERFORMANCE CONCENTRATE** Reduces oil oxidation and wear. Keeps engine components free of rust, varnish, and other accumulated deposits.

**BG 44K® FUEL SYSTEM CLEANER** Professional grade fuel system cleaner removes deposits from injectors, intake valves, and combustion chambers. Restores engine performance.

BG CF5® Stabilizes fuel and protects against the effects of ethanol while providing an effective maintenance level cleaning detergent.

**BG FUEL** INJECTION **SERVICE** The BG VIA® installs the cleaner to perform the most thorough cleanup of fuel injectors and combustion chambers.

**BG ULTRA-GUARD®** LS is an API GL-5 synthetic gear lubricant. Excellent marine, on-road, and off-road lubricant.

**BG PREMIUM SYNTHETIC** HYDRAULIC FLUID has an extremely high viscosity index keeping the fluid from thinning when hot or thickening when cold. Handles sub-zero temperatures at which most fluids fail.

**BG FUEL SYSTEM DRIER** Absorbs moisture that accumulates from condensation in the fuel tank, holding it in suspension until it is burned with fuel.

**BG BRAKE SERVICE** Replaces worn out brake fluid with high quality brake fluid and to maximizes

performance.

**BG BATTERY SERVICE** Cleans battery. terminals, and cables. Seals battery posts. terminals, and case. Prevents terminal corrosion and extends battery life.

**BG HCF WATERPROOF SPRAY LUBRICANT** 

Stavs where you spray it, even when exposed to extreme conditions like harsh chemicals or salt water. Highly effective rust protector.

**BG SPECIAL HCF GREASE** is formulated to withstand high temperatures. Protects against corrosive action of both freshwater and salt water as well as chemical fumes.
